Submission Not in I:

Editor of THE TRABENE. THE THRUNE aims to be helpful to good auses, I am sure, but it misled in its headings yesterday morning when it said: "Violators of Law Most Promise Sabmis-sion by April 1 or Be Presecuted." The movement for the protection of the Sab-bath in Scranton, which has very general encouragement, is on a different basis alto gether. Instead of our committees asking submission from the business men of cranton, they will ask the help and coperation of every one of them. No sub-nission idea or threats of law are its mainspring. Its aim is to protect the rest day and day of worship, and it respectfully and kindly solicits the assistance of all. When the committees have done their work, then, with charity and love, but with cool, determined purpose, all that the laws of the commonwealth may do to secure the submission of the last offender will be employed. Instead of threats and humiliat-ing alliances, there is not a man or place of business in Scranton whose co-opera-tion is not desired. For the committee. F. L. Doxy,

Ne have had a good year. To meet the demands of the school extra teachers were employed—they are with us now. Over 500 young men and women are out of employment in Scranton. This spring and summer we propose to take these young people in our school on easy terms.

The demand for people is not great in any line, but count up the people who do clerical work in all the offices, store, banks and manufactories, and see wist an array of book-keepers, stenographers and clerks are employed. These persons are the business men of tomorrow.

Hundreds of your friends have been at the college and hundreds have succeeded. The fairful ones win; the inattentive fail.

Take these next few months and learn book-keeping or stenography; brush up in grammar, spelling, arithmetic, keep your eye on penman-hip, get a good knowledge of notes, drafts, cheeks, know something of commercial law, and wind up with the business practice.
